RETROSCAVATORE AGRICOLO AGRICULTURAL BACKHOE

Find other products

E

Caratteristiche Tecniche

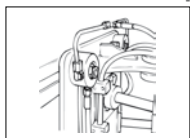

Retroescavatore Agricolo con telaio traslabile e bloccaggio meccanico, piedi stabilizzatori idraulici indipendenti con valvola di blocco, articolazioni principali dotate di perni e boccole in acciaio cementato, temprato e rettificato (escluso modelli E15 ed E19), kit di attacco per trattore agricolo.

Technical specifications

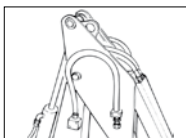

Agricultural Backhoe with transeatable frame and mechanical block, hydraulic and independent stabilizer feet, main joints with pins and bushes in hardened and rectified steel (except for E15, E19 models), linkage kit for agricultural tractor.

MODELLI MODELS		E15	E19	E21	E24	E25	E28	E30	E32	E35
Profondità di scavo Digging depth	mm	1520	1730	2180	2480	2580	2780	2960	3260	3570
Peso Weight	kg.	250	380	450	520	620	750	770	1020	1200
Larghezza telaio Frame largeness	mm	1000	1000	1200	1200	1400	1600	1600	1800	1800
Sfilo Extension							•		•	•
Rotazione cilindri sovrapposti Overponed hydraulic cylinders	°	180	180	180	180	180	180	180	180	180
Portata Oil flow	l/1'	45	55	55	55	60	60	60	80	80
Pressione Pressure	bar	160	160	160	160	170	170	170	170	170

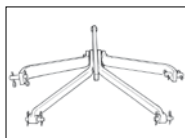

Accessori - Options

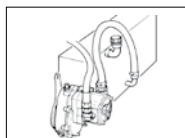

Bloccaggio idraulico della traslazione
Hydraulic block of the frame traslation

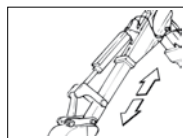

Impianto ausiliario per martello o altri attrezzi idraulici
Breaker hammer working kit

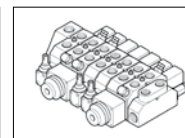

Telaio di irrigidimento per trattore agricolo
Fixing frame system for agricultural tractor

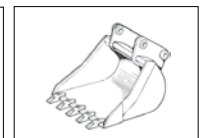

Impianto idraulico indipendente per trattore agricolo composto da pompa, moltiplicatore e serbatoio dell'olio
Independent hydraulic system for agricultural tractor (pump, oil tank, multiplicator)

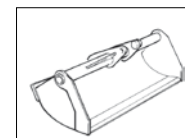

Braccio telescopico con valvola
Extensive arm with valve

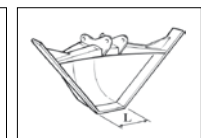

Distributore componibile a cloche
Control valve with lever

Benna da scavo
Bucket

Benna pulizia fossi
Ditch cleaning bucket

Benna trapezoidale
Trapezoidal bucket
