

FRONT SHREDDER SCORPION

TECHNICAL SPECIFICATIONS

- 1 Floating system on linkage back plate
- 2 Back-up sliding roller with 3 different cutting height settings

DESCRIPTION

Scorpion is a front shredder supplied **right side shift**, back-up sliding **roller**, **floating system** and two flexible hoses with for the hydraulic circuit supply plus one flexible hose for **drainage line connection**. It's possible to equip each Scorpion model with **"Y" knives kit** or **hammers kit [*]** directly on the same shaft. The right side-shift system can be choosed **mechanical** or **hydraulic**, in this last case will be provided by an hydraulic cylinder, a solenoid valve by splitting the hydraulic functions and by an electric kit with supply connection and on/off switch button. The floating plate provides a vertical excursion that allows the equipment to be always close to the ground in case of unevennes and bumps.
